

Academic year 2018-19

GREENING - PLASTIC AWARENESS PROGRAM

The entire faculty and students of our Department conducted a social awareness program about plastics on 28th December 2018 at Maduravoyal. Nearly 50 students of our Department eagerly participated. The students were taken to Maduravoyal and after the program to the College, in the College bus. The program started at around 10 a.m and ended at 12.30p.m. We began the program with a rally around Krishna Nagar. The students shouted slogans and carried placards displaying the harmful effects of plastics. They halted at three different and crowded places and executed songs, skits and speeches so as to reach majority of the residents. Street play was performed on three different themes education for women, necessity of wearing helmet and agricultural degradation. The enchanting performance of the students resulted in the sincere commendation of the people. Paper bags were given to the public at the end of every segment to promote the use of paper bags instead of plastics. Green color dress code was followed by us on that day signifying the importance of greenery. This awareness program was published in the Maduravoyal Times Newspaper on 1st March 2019.
